CONTENTS OF VOLUME 11

NUMBER 1

Editorial 1

Cover. Surface expressions of eddies within the ice pack. **R. A. Shuchman, L. L. Sutherland, and O. M. Johannessen** 3

An eddy, coastal jets and incoming swell all interacting near Pt Conception, California. **D. Sheres and K. E. Kenyon** 5

Swell refraction by the Pt Conception, California, eddy. **D. Sheres and K. E. Kenyon** 27

Estimation of the horizontal velocity of the Socotra eddy and some observations of sea surface thermal features using INSAT-1B. **M. M. Ali** ... 41

The determination of broad band surface albedo from AVHRR visible and near-infrared radiances. **R. W. Saunders** 49

Données Thematic Mapper de Landsat et perception de l'occupation du sol en milieu littoral méditerranéen. **R. Manière, C. Chamignon, J. Courboules et M. Barboro** 69

Remote sensing of temperate coniferous forest leaf area index. The influence of canopy closure, understory vegetation and background reflectance. **M. A. Spanner, L. L. Pierce, D. L. Peterson and S. W. Running** 95

Modelling planetary bidirectional reflectance over land. **R. T. Pinker and L. L. Stowe** 113

A simple method for estimating downward longwave radiation from surface and satellite data by clear sky. **A. Tuzet** 125

Technical note. A simple way to perform decorrelation stretching and related techniques on menu-driven image processing systems. **D. A. Rothery and G. A. Hunt** 133

Remote Sensing Letters

Simulation of thermal inertia imagery with daytime HCMM data. **T. J. Majumdar and B. B. Bhattacharya** 139

The spatial variation of vegetation changes at very coarse scales. **J. R. G. Townshend and C. O. Justice** 149

A fast atmospheric correction algorithm applied to Landsat TM images. **R. Richter**. 159

Satellite sensor estimates of northern hemisphere snow volume. **A. T. C. Chang, J. L. Foster and D. K. Hall** 167

A satellite sensor image of the Leeuwin current, Western Australia. **A. J. Prata and J. B. Wells** 173

A laboratory calibration of infrared thermometers. **I. R. Wright** 181

NUMBER 2

Cover. Ranching in the Amazon Basin. Large-scale changes observed by AVHRR. **J. P. Malingreau and C. J. Tucker** 187

Algorithme d'analyse fractale de contours en télédétection et applications. **G. Ramstein et M. Raffy** 191

An automated system for mosaicking spaceborne SAR imagery. **R. Kwok, J. C. Curlander and S. S. Pang** 209

An assessment of SPOT XS and Landsat MSS data for digital classification of near-urban land cover. **J. P. Gastellu-Etchegorry** 225

Relative photosynthetic activity of agricultural lands from airborne carbon dioxide and satellite data. **A. R. Mack, R. L. Desjardins, J. I. MacPherson and P. H. Schuepp** 237

Geological features of the Spitsbergen region obtained from multispectral SPOT data and field radiometer measurements. **N. Lyberis, J. F. Parrot, J. Chorowicz and J. P. Rudant** 253

Delineation of Deccan Trap outcrop extensions using satellite remote sensing techniques in Lalitpur district, Uttar Pradesh, India. **J. Krishnamurthy** .. 267

Technical note. Coastal geomorphology of Mahe Island, Seychelles. **B. G. Wagle and N. H. Hashimi** 281

Chlorophyll-*a* estimation in New Jersey's coastal waters using Thematic Mapper data. **S. Bagheri and R. A. Dios** 289

A multi-temporal study of chlorophyll-*a* concentration in the Albufera lagoon of Valencia, Spain, using Thematic Mapper data. **M. J. López García and V. Caselles** 301

Mapping of phytoplankton by solar-stimulated fluorescence using an imaging spectrometer. **J. F. R. Gower and G. A. Borstad** 313

Technical note. Use of microwave remote sensing in salinity estimation. **R. P. Singh, V. Kumar and S. K. Srivastav** 321

Utilization of Landsat multispectral data in geobotanical investigations. The location of ironstone gravel in the Sam Houston National Forest, Texas. **W. G. Cibula and W. Lucas** 331

Technical note. Filters for removing coherent noise of period 2 in SPOT imagery. **T. Westin** 351

Technical note. Characterization and removal of horizontal striping from SPOT panchromatic imagery. **G. Büttner and A. Kapovits** 359

NUMBER 3

Cover. The eastern coast of India in the vicinity of Madras. **J. C. Rivereau** 367

Towards a local split window method over land surfaces. **F. Becker and Zhao-Liang Li** 369

A model for retrieval of surface spectral reflectance from satellite radiance measurements using realistic atmospheric aerosol profiles. **S. Basu, M. Tewari and V. K. Agarwal** 395

Ground and aircraft infrared observations over a partially-vegetated area. **W. P. Kustas, B. J. Choudhury, Y. Inoue, P. J. Pinter, M. S. Moran, R. D. Jackson and R. J. Reginato** 409

An unsupervised approach to the classification of semi-natural vegetation from Landsat Thematic Mapper data. A pilot study on Islay. **A. S. Belward, J. C. Taylor, M. J. Stuttard, E. Bignal, J. Mathews and D. Curtis** 429

Comparison of two models for simulating the soil–vegetation composite reflectance of a developing cotton canopy. **A. J. Richardson and C. L. Wiegand** 447

Crop monitoring in Sweden. **K. Hall-Könyves** 461

Digital processing of Landsat TM data for wasteland mapping in parts of Aligarh District (Uttar Pradesh), India. **S. K. Saha, M. Kudrat and S. K. Bhan** 485

Comparison of *in situ* and satellite-derived reflectances of Forbindels Glacier, Greenland. **D. K. Hall, R. A. Bindschadler, J. L. Foster, A. T. C. Chang and H. Siddalingaiah** 493

Knowledge-based techniques for multi-source classification. **A. Srinivasan and J. A. Richards** 505

Remote Sensing Bulletin 527

Remote Sensing Letters

Are cloud amounts estimated from satellite sensor and conventional surface-based observations related? **A. Henderson-Sellers and K. McGuffie** ... 543

Classification of SPOT HRV imagery and texture features. **S. E. Franklin and D. R. Peddle** 551

NUMBER 4

Cover. Bathymetry using Landsat MSS data of Penang Island in Malaysia. **M. Ibrahim and A. P. Cracknell** 557

Height errors introduced into the analysis of radar altimetry data by use of the simplified Brown model. **Chen Shi Ping** 561

Technical note. Development and applications of a database using Bhaskara SAMIR (microwave) data. **B. B. Bhattacharya and T. J. Majumdar** ... 577

Global digital topography mapping with a synthetic aperture scanning radar altimeter. **C. Elachi, K. E. Im, F. Li and E. Rodriguez** 585

Radar backscatter measurements over saline ice. **S. Gogineni, R. K. Moore and Q. Wang** 603

The slightly-rough facet model in radar imaging of the ocean surface. **J. C. West, R. K. Moore and J. C. Holtzman**... 617

A numerical model for radar backscatter from a lossy inhomogeneous layer. **H. T. Chuah and H. S. Tan** 639

Technical note. GPS location data. An aid to satellite image analyses of poorly mapped regions. **D. S. Wilkie** 653

Technical note. Description of a computer code to simulate the satellite signal in the solar spectrum: the 5S code. **D. Tanré, C. Deroo, P. Duhaut, M. Herman, J. J. Morcrette, J. Perbos and P. Y. Deschamps** 659

Pattern of the main tectonic trends from remote geophysics, geological structures and satellite imagery, Central Eastern Desert, Egypt. **S. I. Rabie and A. A. Ammar** 669

An evaluation of SPOT capability for mapping the geology and soils of Central Java. **J. P. Gastellu-Etchegorry, H. van der Meer Mohr, A. Handaya and W. J. Surjanto** 685

NUMBER 5

Cover. MESSR image of reclaimed land at Jurong Industrial Estate, Singapore. **Y. J. Chong** 703

Ocean colour analysis in coastal waters by airborne sensors. **G. Zibordi, G. Maracci and P. Schlittenhardt** 705

A ratio vegetation index adjusted for soil brightness. **D. J. Major, F. Baret and G. Guyot** 727

Meteosat-based evapotranspiration and thermal inertia mapping for monitoring transgression in the Lake Chad region and Niger Delta. **A. Rosema and J. L. Fiselier** 741

Atmospheric water vapour over oceans from SSM/I measurements. **P. Schluessel and W. J. Emery** 753

Observations of flow separation by an isolated island. **P. A. Davies and L. A. Mofor** 767

Determination of surface reflectance and estimates of atmospheric optical depth and single scattering albedo from Landsat Thematic Mapper data. **J. E. Conel** 783

Effects of topography on radiance from upland vegetation in North Wales. **A. G. Thomson and C. Jones** 829

Thematic Mapper thermal infrared data in discriminating selected urban features. **S. M. Leak and G. Venugopal** 841

Destriping multiple sensor imagery by improved histogram matching. **M. Wegener** 859

A shipborne AVHRR-HRPT receiving and image processing system for polar research. **T. Viehoff** 877

Technical note. Analysis of cloud imagery using box counting. **A. Detwiler** 887

Remote Sensing Letters

A graphical approach for the evaluation of land-cover classification procedures. **P. Gong and P. J. Howarth** 899

Initial analysis of Landsat TM data for elk habitat mapping. **T. P. Huber and K. E. Casler** 907

Estimating suspended sediment concentrations from spectral reflectance data. **L. Nanu and C. Robertson** 913

Limitations to the identification of spatial structures from AVHRR data. **A. S. Belward and E. Lambin** 921

NUMBER 6

Cover. An image recorded by the Airborne Visible/Infrared Imaging Spectrometer (AVIRIS). **P. J. Curran and J. L. Dungan** 929

SST in polynias: A case study. **P. Schluessel and H. Grassl** 933

Algorithms for remote sensing of high concentration, inorganic suspended sediment. **B. J. Topliss, C. L. Almos and P. R. Hill** 947

Pollution monitoring of the North Sea using NOAA/AVHRR imagery. **D. Spitzer, R. Laane, and J. N. Roozekrans** 967

The derivation of water volume reflectances from airborne MSS data using *in situ* water volume reflectances, and a combined optimization technique and radiative transfer model. **E. W. Ramsey III and J. R. Jensen** ... 979

Variability of the Columbia River plume observed in visible and infrared satellite imagery. **P. C. Fiedler and R. M. Laurs** 999

Improvement of forest type classification by SPOT HRV with 20 m mesh DTM. **T. Senoo, F. Kobayashi, S. Tanaka and T. Sugimura** 1011

Canopy bidirectional reflectance dependence on leaf orientation. **T. W. Brakke and J. Otterman** 1023

Sodar observation of elevated layers around Calcutta. **J. Das, A. K. De and D. Dutta Majumder** 1033

A polytetrafluoroethylene coating for field reference reflection panels. **A. R. Marjoram, P. J. Vickery and D. C. McKenzie** 1047

Modelling and navigating space–time drift of digitized radar rainfall patterns. **N. R. Dalezios, N. Kouwen and P. C. Linardis** 1055

Remote Sensing Bulletin 1065

Remote Sensing Letters

The relationship between sensor geometry, vegetation-canopy geometry and image variance. **M. J. Barnsley and S. A. W. Kay** 1075

Sampling depth of soil moisture content by radiometric measurement at 21 cm wavelength: some experimental results. **P. Pampaloni, S. Paloscia, L. Chiarantini, P. Coppo, S. Gagliani and G. Luzi** 1085

NUMBER 7

Special issue: International forest signature workshop

Preface 1093

Climate change and the response of forests. **D. M. Gates** 1095

Physics concepts of optical and radar reflectance signatures. A summary review. **S. A. W. Gerstl** 1109

The effect of changing environmental conditions on microwave signatures of forest ecosystems: preliminary results of the March 1988 Alaskan aircraft SAR experiment. **J. Way, J. Paris, E. Kasischke, C. Slaughter, L. Viereck, N. Christensen, M. C. Dobson, F. Ulaby, J. Richards, A. Milne, A. Sieber, F. J. Ahern, D. Simonett, R. Hoffer, M. Imhoff and J. Weber** 1119

Spectroradiometer measurements in the laboratory and in the field to analyse the influence of different damage symptoms on the reflection spectra of forest trees. **B. Koch, U. Ammer, T. Schneider and H. Wittmeier** ... 1145

Applications in *in vivo* chlorophyll fluorescence in forest decline research. **G. Schmuck** 1165

Helicopter-borne measurements of radar backscatter from forests. **M. T. Hallikainen, T. Tares, J. Hyyppä, E. Somersalo, P. Ahola, M. Toikka and J. Pulliainen** 1179

A brief review of microwave forest signature measurements in the Netherlands and the perspective for a European research programme. **D. H. Hoekman** 1193

Backscatter measurements from a vegetation-like structure. **C. E. Nance and A. J. Blanchard** 1205

Michigan microwave canopy scattering model. **F. T. Ulaby K. Sarabandi, K. McDonald, M. Whitt and M. C. Dobson** 1223

The polarization phase difference of orchard trees. **J. R. Wang and T. Mo** 1255

Incidence-angle dependence in forested and non-forested areas in Seasat SAR data. **Y. Rauste** 1267

Connecting forest ecosystem and microwave backscatter models. **E. S. Kasischke and N. L. Christensen, Jr** 1277

Radar backscatter modelling of forests: a review of current trends. **J. A. Richards** 1299

Radar detection of flooding beneath the forest canopy: a review. **L. L. Hess, J. M. Melack and D. S. Simonett** 1313

NUMBER 8

Editorial 1327

Cover. The use of perspective views in local planning. **N. A. Quarmby and R. J. Saull** 1329

Normalization of satellite imagery. **H. H. Kim and G. C. Elman** 1331

A three-step cloud clearing procedure for infrared sounder measurements. **A. Andretta, C. Serio, M. M. Bonzagni, R. Rizzi and V. Cuomo** 1349

Atmospheric corrections for remotely-sensed thermal data in a cool humid temperate zone. **R. Desjardins, J. Gray and F. Bonn** 1369

A simple geometrical model for analysing the spectral response of a citrus canopy using satellite images. **M. A. Gilabert and J. Meliá** 1391

Remote sensing of weather impacts on vegetation in non-homogeneous areas. **F. N. Kogan** 1405

Experimental data for separation of vegetation and soil and estimation of soil moisture using passive microwaves. **A. D. Vyas, A. J. Trivedi, O. P. N. Calla, S. S. Rana, S. B. Sharma and A. B. Vora** 1421

Forest cover type mapping and damage assessment of *Zeiraphira diniana* by SPOT 1 HRV data in the Mercantour National Park. **C. Chamignon and R. Manière** 1439

Synthetic-aperture-radar imaging of the ocean surface using the slightly-rough facet model and a full surface-wave spectrum. **J. C. West, R. K. Moore and J. C. Holtzman** 1451

A relaxation method for integral inversion applied to HF radar measurement of the ocean wave directional spectrum. **L. R. Wyatt** 1481

Remote Sensing Letters

Testing an area-weighted model for albedo or surface temperature of mixed pixels in Mediterranean woodlands. **S. Rambal, B. Lacaze and T. Winkel** 1495

Eruptive patterns and structure of Isla Fernandina, Galapagos Islands, from SPOT-1 HRV and large format camera images. **D. C. Munro and P. J. Mouginis-Mark** 1501

NOAA-11 AVHRR visible and near-IR inflight calibration. **B. N. Holben, Y. J. Kaufman and J. D. Kendall** 1511

Hue image RGB colour composition. A simple technique to suppress shadow and enhance spectral signature. **J. G. Liu and J. McM. Moore** 1521

NUMBER 9

Special issue: International Conference on Advances in Remote Sensing

Preface and acknowledgments. **T. Astaras** 1531

Testing of a model for the simulation of the volume reflectance of water due to suspended sediment under controlled conditions, for various sediment types. **K. S. Albanakis** 1533

A drainage system analysis evaluation of, and comparison between, Landsat-3 RBV, Landsat-5 TM and SPOT PA imageries covering the Central Macedonia district, Greece. **T. Astaras, N. Lambrinos and N. Soulakellis** 1549

Digital processing of weather radar signals for rainfall estimation. **N. R. Dalezios** 1561

Extraction of forest stand parameters from panchromatic and multispectral SPOT-1 data. **R. R. De Wulf, R. E. Goossens, B. P. De Roover and F. C. Borry** 1571

The utility of digital Thematic Mapper data for natural resources classification. **M. A. Karteris** 1589

Availability of cloud-free Landsat images for operational projects. The analysis of cloud-cover figures over the countries of the European Community. **C. Kontoes and J. Stakenborg** 1599

Multi-temporal remote sensing study of spectral signatures of crops in the Thessaloniki test site. **G. Maracci and D. Aifadopoulou** 1609

Un indice de changement diachronique appliqué à deux scènes Landsat MSS sur Athènes (Grèce). **E. Nicoloyanni** 1617

Integration of Landsat and aeromagnetic data as aid to the structural analysis of Crete and S.E. Peloponessus. **M. Stefouli and A. Angelopoulos** ... 1625

Land-use mapping in West Messinia, Greece, using satellite imagery. **L. G. Toulios, N. J. Yassoglou and M. Moutsoulas** 1645

NUMBER 10

Editorial 1663

Cover. Short wavelength infrared images for volcano monitoring. **D. A. Rothery and P. W. Francis** 1665

Assumptions implicit in remote sensing data acquisition and analysis. **M. J. Duggin and C. J. Robinove** 1669

Monte-Carlo simulation studies of the nonlinear imaging of a two dimensional surface wave field by a synthetic aperture radar. **C. Brüning, W. Alpers and K. Hasselmann** 1695

Managing technology transfer for coastal zone development: Caribbean experts identify major issues. **C. Specter and D. Gayle** 1729

Shape of the red edge as vitality indicator for plants. **F. Boochs, G. Kupfer, K. Dockter and W. Kühbauch** 1741

Quantitative characterization of the vegetation red edge reflectance. 1. An inverted-Gaussian reflectance model. **J. R. Miller, E. W. Hare and J. Wu** 1755

Visible and near infrared reflectance characteristics of dry plant materials. **C. D. Elvidge** 1775

Spectral estimates of the absorbed photosynthetically active radiation and light-use efficiency of a winter wheat crop subjected to nitrogen and water deficiencies. **S. Steinmetz, M. Guerif, R. Delecolle and F. Baret** 1797

Radiometric estimation of biomass and nitrogen content of barley grown at different nitrogen levels. **A. Jensen, B. Lorenzen, H. S. Østergaard and E. K. Hvelplund** 1809

The relation between reflected radiation and yield on the Broadbalk winter wheat experiment. **P. M. Ashcroft, J. A. Catt, P. J. Curran, J. Munden and R. Webster** 1821

Simulated and observed 37 GHz emission over Africa. **B. J. Choudhury, J. R. Wang, A. Y. Hsu and Y. L. Chien** 1837

Modelling of post-rain attenuation of microwaves at 22·235 GHz in relation to vertical transport of water vapour. **A. K. Sen, T. K. Das, S. Dev Barman, P. K. Karmakar, A. K. Dev Gupta, M. K. Das Gupta, O. P. N. Calla and S. S. Rana** 1869

Mapping of waterlogged and salt-affected soils using microwave radiometers. **R. P. Singh and S. K. Srivastav** 1879

Use of Landsat imagery for mapping soil and land resources for development planning in parts of Northern Karnataka, India. **C. R. Shiva Prasad, S. Thayalan, R. S. Reddy and P. S. A. Reddy** 1889

Classification of TM imagery in the study of land use in lowland Britain: practical considerations for operational use. **R. M. Fuller and R. J. Parsell** 1901

Technical note. Application of autocorrelation function to structural lineaments in radioactive sample area in the central Eastern Desert of Egypt. **M. L. Meleik and F. S. Bakhit** 1919

Book reviews 1927

Remote Sensing Letters

Directed ground survey for improved maximum likelihood classification of remotely sensed data. **G. M. Foody** 1935

The polarization feature space: a new method of data presentation. **J. C. Macdonald and E. J. Milton** 1941

Monitoring arid lands using AVHRR-observed visible reflectance and SMMR-37 GHz polarization difference. **B. J. Choudhury** 1949

Atmospheric optical thickness from '2π radiometer' data. **G. Maracci and G. Zibordi** 1957

Evidential reasoning in a pixel classification hierarchy—a potential method for integrating image classifiers and expert system rules based on geographic context. **G. G. Wilkinson and J. Mégier** 1963

Passive microwave radiometry over Antarctica. **C. Kidd and R. M. Lucas** 1969

NUMBER 11

Special issue: Australian Bicentenary

Preface. **G. A. Morgan** 1975

Cover. 1977

Remote sensing applications in the Australian Bureau of Meteorology. **J. W. Zillman, D. Griersmith, J. Le Marshall and D. J. Gauntlett** 1979

Mineral mapping and vegetation removal via data-calibrated pixel unmixing, using multispectral images. **P. N. Bierwirth** 1999

Deep weathering, vegetation and fireburn—significant obstacles for geoscience remote sensing in Australia. **C. J. Simpson** 2019

Mapping and monitoring land cover in the Willandra Lakes World Heritage Region. **A. K. Milne and A. L. O'Neill** 2035

Satellite-derived evaporation from Lake Eyre, South Australia. **A. J. Prata** 2051

Relationship of multispectral satellite data to land surface evaporation from the Australian continent. **R. C. G. Smith and B. J. Choudhury** 2069

Region adjacency analysis of remotely-sensed imagery. **D. G. Nichol** ... 2089

An application of satellite-derived sea surface temperature data to the Australian fishing industry in near real-time. **D. G. Myers and P. T. Hick** 2103

Remote Sensing Letters

On the correlation of indices of vegetation and surface temperature over south-eastern Australia. **R. C. G. Smith and B. J. Choudhury** 2113

NUMBER 12

Cover. Exceptional fire events in the tropics. Southern Guinée January 1987. **J. P. Malingreau, N. Laporte and J. M. Gregoire** 2121

Sun-stimulated chlorophyll fluorescence. 1: Influence of oceanic properties. **J. Fischer and U. Kronfeld** 2125

Sun-stimulated chlorophyll fluorescence. 2: Impact of atmospheric properties. **J. Fischer and P. Schlüssel** 2149

Remote sensing of coastal waters by airborne lidar and satellite radiometer. Part 1: A model study. **A. Schmitz-Peiffer and H. Graßl** 2163

Remote sensing of coastal waters by airborne lidar and satellite radiometer. Part 2: Measurements. **A. Schmitz-Peiffer, T. Viehoff and H. Graßl** ... 2185

Seasonal changes in the global wave climate measured by the Geosat altimeter. **P. G. Challenor, S. Foale and D. J. Webb** 2205

Limits to the resolution of elevation maps from stereo SAR images. **C. Prati and F. Rocca** 2215

Geometric correction of airborne scanner imagery by matching Delaunay triangles. **B. J. Devereux, R. M. Fuller, L. Carter and R. J. Parsell** ... 2237

SPOT HRV data to discriminate grassland quality. **C. M. Girard, M. Benoit, E. de Vaubernier and P. J. Curran** 2253

A phenological classification of terrestrial vegetation cover using shortwave vegetation index imagery. **D. Lloyd** 2269

Comparison between two vegetation indices for measuring different types of forest damage in the north-eastern United States. **J. E. Vogelmann** ... 2281

Comparison of Meteosat-based rainfall and evapotranspiration mapping in the Sahel region. **A. Rosema** 2299

Modelling scanning and starting imaging infrared sensors using a static performance model. **C. Salvaggio, S. Israel, Y. T. Kang, M. L. Bartholomew, D. M. Pokrzywka, J. S. Davis and M. J. Duggin** 2311

Remote Sensing Letters

Characterization of marine macroalgae by fluorescence signatures. **J. A. Topinka, W. Korjeff Bellows and C. S. Yentsch** 2329

Recognition of lithological units in airborne SAR images using new texture features. **Dong-Chen He and Li Wang** 2337

Index of authors (with titles of papers) 2345
